APA VISITATION TO AL MUNTAZIR SCHOOLS

At the end of the last year we received email from the American Psychological Association through their office of International Affairs under APA Learning Partner Program (ILPP) the purpose of the ILPP in Tanzania was to develop meaningful professional connection with colleagues abroad and gain unique insights in the applications of psychology in Tanzania, A-Muntazir Schools, AMSEN including were among the institutions picked to be visited.

The delegates got a short historical background of the Al-Muntazir schools and how they provide service from the CEO – Mr. Ladak, including the role of the counselors to nurture the kids and Adolescents, the delegates reported to be very excited with the AMSEN services as well as the number of counselors the institution have showing that the institution really aim to help the children and youth to grow.

The delegates also got opportunity to visit AMSEN and were given a first-hand information on how the kids with special needs are taken care of.

On the other hand, our school counselor Mr. Saldin got a trust to host, organize and facilitate the whole 4 days trip to various learning institutions in Dar es Salaam, where the delegates were taken to Muhimbili National Hospital as well as Muhimbili University of Health and Allied sciences.

The visit is expected to start a fruitful relationship between Al Muntazir Schools and American Psychological Association (APA).
