FIELD TRIP TO AZAM ICE CREAM AND FRUIT JUICE FACTORY

The learners of Grade Four had a very enjoyable and exciting field trip when they visited the Azam Ice Cream and Fruit Juice Factory accompanied with their teachers.

The girls were first introduced to the very friendly people working at the factory who explained the steps involved in making Ice-cream and Juice. Then the students were taken around to the different sections of the factory for their tour.

The students were so excited to observe the actual process of making their favorite Azam Ice Creams and Fruit Juices.

It was amazing to see students being so curious and asking so many questions to clear out their doubts.

A fun filled learning experience brought out the self-assurance and the confidence of our young students.

The best part of the day was when the children and teachers were treated to Juices and Ice Creams at the end of the tour. It was unexpected and they enjoyed the delicious break before coming back to school.

Students arrived at the factory
