

The most valuable resource that all teachers have is each other. Without collaboration our growth is limited to our own perspectives. – Robert John Meehan

Al Muntazir Hosts Teachers From Nairobi As Part Of The Teacher Exchange Program

The Al Muntazir Schools hosted three teachers from Nairobi Jaffery Academy in July as part of the Teacher Exchange Program that the schools have embarked upon.

The aim was to provide an opportunity for teachers to meet and enhance their shared professional understanding of school based learning environments and practices. Mr. Benson who was leading his team of Ms. Carol and Ms. Susan spent a lot of time with the lower as well as the Upper school teachers at the Al Muntazir Primary Schools as well as the Al Muntazir Islamic Seminary.

The teachers spent their one week fruitfully but visiting all campuses, conducting observation in the classrooms, conducting workshops for small groups of teachers and most importantly, establishing a positive working network with the Al Muntazir teachers.

The teachers from Nairobi Jaffery and Al Muntazir Schools shared best practices, collaborated and interacted for the purpose of sharing and developing a greater understanding and technique of better teaching, better learning, and a stronger school community.

This is just the first of the many teacher and student exchange programs in the months to follow.
